

100% CHILD SAFE!

The Only Certified SAFE Firestick Flame Heater. Meets ALL Australian & New Zealand Standards.

The FireStick

Portable Outdoor Gas Heater + Lantern for LPG & Natural Gas

Strong + Portable

Stainless steel, aluminium + powder coated metal makes for an all enduring product, light + fully portable. Base wheels make moving the unit extremely easy.

Iconic

The new magnificent out of the box design is already making **The FireStick** the world leader in outdoor portable gas heaters.

Accessories

Attachable Bar Table : Allows your guests to sit around The FireStick on bar stools or stand around and use the bar counter.

The Summer Hat : Facilitate the use of The FireStick during warm periods as a lantern or mood setter without creating heat.

The Extra Large Hat : The XXL hat increases the disbursement of heat.

The Stainless Steel Lock Downs : Elegant tie downs will keep The FireStick in lockdown mode.

Cover : High quality fabric fully protective cover for storage.

Marketing + Advertising Panel : Ideal for promotions or specials. Two base panels can be replaced with A2 size perspex marketing windows.

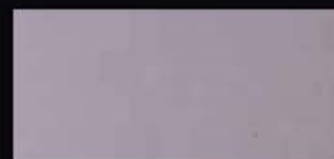

New Radiator

New innovative stainless steel radiator which sits inside the glass, produces 40% MORE HEAT at body height.

Safety

The FireStick is 100% safe - for children and to the touch. The outside grid does NOT get hot. The unit has a built in tilt switch which automatically turns the unit off should it be knocked over.

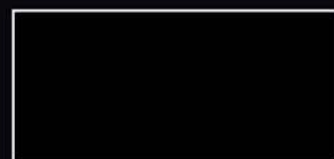

The FireStick and accessories available in a choice of:

Powder Coat Silver Grey

Powder Coat Grey Hammermill

Powder Coat Black

High Grade Stainless Steel
